March 2017

Musical Theatre Gisborne

From the President...

Hello to you all,

With the year starting in full swing with Westside Story in our sights, we auditioned the show and after much deliberation around a lack of young males to fulfil the roles of the Jets and the Sharks we were unable to cast the show in its entirety and we regretfully cancelled the show. This is not the first time we have faced this dilemma, but on the upside we had to move fast and made the decision to find another show. We have chosen Beauty and the Beast, a wonderful modern musical that features a younger and older cast. John Drummond remains our Director and has directed Beauty and the Beast previously. Chris Reynolds and Jasmine Sargent are still both on board.

Dust off your vocal chords and don your dancing shoes—MTG needs talented actors, singers and dancers and production crew to bring this delightful and romantic tale to life.
